

Ashten Smith.

STAFF PRODUCT DESIGNER · AI PLATFORM · AGENTIC UX · DESIGN SYSTEMS

ashtensmith.github.io/ashten-portfolio · ashtensmith472@gmail.com · [linkedin.com/in/ashten-smith](https://www.linkedin.com/in/ashten-smith) · Remote (US)

Product designer with **8+ years** turning complex, high-stakes software into trusted, consumer-grade experiences. I work at the edges of new technology, designing **agentic AI workflows**, payments platforms, and the **design systems** that hold them together, and I craft the vision narratives that align engineering, product, and leadership. Strongest at **0→1** and in ambiguous, deeply technical problem spaces where software has to explain itself and earn trust.

FOCUS

AI & agentic workflow design · design systems at scale · system thinking · 0→1 product vision & strategy · complex enterprise UX

RESEARCH & CRAFT

RESEARCH

User & stakeholder interviews, usability & prototype testing, contextual inquiry, survey & script design, research planning

CRAFT

UI & interaction design, visual craft, prototyping, wireframes, heuristic evaluation, journey mapping, ideation facilitation

TOOLS

Figma / Claude / Lovable / Replit / Pendo /
Amplitude / Qualtrics / Mixmax / Excel /
Google Workspace

EDUCATION

M.M., Music

San Francisco Conservatory of Music

B.A., Music & Psychology

California State University, Bakersfield

EXPERIENCE

HubSpot

2022 – PRESENT

Senior Product Designer II, Payments & Checkout Experience (promoted from Senior Product Designer I)

- Set the **0→1 vision for HubSpot's first agentic customer portal**: a unified, intelligent surface consolidating billing, support, and account management that acts on behalf of users, aligning **4 teams** around a shared agentic-UX foundation.
- Reframed payment links and checkout as an **extensible, observable platform** built for the agent-driven workflows products will soon depend on, shipping checkout extensibility and agent-ready payment rails.
- Led, as UX and product DRI, Commerce Hub's most-requested feature (**securely stored payment methods**), research-led from a year of customer feedback through testing and launch to **60% adoption** and **\$26M in revenue**.
- Drove a **47.5% checkout conversion rate** across B2B and B2C through iterative experimentation with engineering, and lifted Gross Payment Volume **~10%** with a digital-wallet integration.
- Designed for **trust at the point of payment**, partnering with Legal and Content Design to meet FTC compliance requirements without sacrificing usability.

Jetty

2022

Senior Product Designer

- Launched Jetty's **first customer research program**, establishing a weekly research cadence for B2B customers.
- Built and analyzed Jetty's first **product-market-fit survey**, prompting a product-strategy shift that reshaped marketing and sales outreach.
- Set a 3-month foundational research plan for Jetty Rent and coached executives (CEO, CRO, VP Engineering) and PMs with just-in-time, data-driven recommendations.

AppFolio

2019 – 2022

Senior UX Designer · UX Designer · Associate UX Designer

- Led a **data-driven redesign of AppFolio's most-visited page**, using behavioral data and usability testing to lift task success **+82%** on key flows, with **2 patterns adopted into the design system**.
- Led design for the **Utility Management** accounting product across two product teams, shaping B2B/B2C strategy with Product, UX, and Engineering leadership.
- Delivered roadmap-adopted recommendations driving a **20% lift in online leasing adoption** and a **27% margin increase**, clearing the 40% product-market-fit benchmark.
